PROFESSIONAL EXPERIENCE

Home From College Oct. 2025 - Present
Hybrid

- Created high-performing short-form video content for brands including **CapCut**, **Gauth**, **Sprayalldayenergy**, **Key Energy Drink (TikTok and Amazon)**, **Higgsfield AI**, **Neon**, **Dreamina AI (ByteDance), and Capcut Template Creator** by applying creative storytelling, trend analysis, and platform-native editing, resulting in 500K+ total views, 8–12% engagement rates, and increased brand visibility across platforms.
- Selected and invited by brands for paid collaborations and promotions due to consistent creative quality and performance, leading to repeat partnerships and a 100% on-time campaign delivery rate.
- Scaled content output while working remotely from college by managing ideation, filming, editing, and posting independently, delivering 20+ branded videos per month without missed deadlines.
- Adapted content across **TikTok**, **Instagram Reels**, and **YouTube Shorts**, repurposing assets and captions strategically, resulting in multi-platform distribution and 2× overall content efficiency.

PROJECT EXPERIENCE

FullStack Digital Market Place | Freelancer Project | Link
Next.js, Node.js, MongoDB, Stripe, Tailwind CSS 2026 - Present

- Architected and developed a **scalable full-stack digital marketplace** supporting courses and digital products, with real-time payment processing via **Stripe**.
- Implemented **role-based access control** for **users, sellers, and admins**, enabling product creation, approvals, analytics, and account management.
- Built secure checkout and transaction workflows using **Stripe APIs**, handling payments, order confirmation, and error states.
- Developed **dual dashboards** for sellers and administrators to manage products, users, revenue tracking, and reporting.
- Integrated an **AI-powered chatbot** to assist users with product discovery and support, improving engagement and retention by **35%**.
- Automated transactional and promotional email workflows using **Resend**, with modular templates for scalable communication.
- Designed responsive, accessible UI components using **Next.js**, **Tailwind CSS**, and **shadcn/ui**, enhanced with **Framer Motion** animations.

Smile Care Dental | Personal Project | Link
Next.js, Tailwind CSS, shadcn/ui, Resend, Responsive Design 2025 - Present

- Built a responsive dental clinic web application supporting **appointment scheduling, service discovery, and patient communication**.
- Engineered a modern frontend with **Next.js**, **Tailwind CSS**, and **shadcn/ui**, emphasizing accessibility and performance.
- Integrated **Resend** for automated appointment confirmations and reminders.
- Developed a **voice-enabled AI agent** using **Speech API** to assist users with scheduling and general inquiries via natural language interaction.
- Applied mobile-first responsive design to deliver a consistent experience across devices.
- Designed clean, user-friendly interfaces focused on usability and conversion.

RecipeHub | Personal Project | Demo
Next.js, Firebase, Resend, Tailwind CSS, shadcn/ui, Responsive Design 2024 - Present

- Built a responsive recipe management platform that enables users to **create, update, and delete** personalized **recipes** by integrating **RESTful APIs from dummyjson** with user data using **Next.js, React, Shadnui, TailwindCSS,** and **email service (resend)**.
- Improved user retention and dashboard usability by 25% by implementing **local storage-based authentication** and **CRUD functionality**, through modular **routing** and **state-driven UI logic**.
- Streamlined admin oversight and user verification by developing an **admin dashboard** to **monitor activity** and **automate profile confirmation**, using **role-based access** and **backend logic**.
- Upgrading from local storage to a **scalable cloud-based** architecture to support secure data handling and persistent storage by integrating **Firebase** for **storage, cloud service, authentication, and real-time data**.

EDUCATIONAL EXPERIENCE/CERTIFICATIONS

CUNY Queensborough Community College, Bayside, NY
July - August 2023, Sept 2024 - Feb. 2025
Certification in Computer Science
Cloud Security, Frontend Web Development, Computer Science, Technical Foundations

- AWS Cloud Computing & Certification - Coursera (QCC/Amazon)
- Cybersecurity & Web Security,
- Google IT Support (Comptia A+), Meta Frontend Developer,
- Web Development - Illinois Tech - Coursera
- IBM Web Development, Java, React, Software Engineering - EdX
- MERN Web Development, React18, 19, Next - codedamn
- Frontend Simplified Bootcamp - Software Engineering
- Computer science - Sololearn (Profile)
- JavaScript Certification course - Odin Project

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, SQL
Fullstack: React, Next.js, Tailwind CSS, shadcn/ui, Material UI, Node.js, Flask, REST APIs
Databases & Cloud: PostgreSQL, Prisma, AWS, Firebase
